Foreword.....	ii
Disclaimer.....	iv
Copyright.....	iv
Introducing Benchmarking and Manufacturing Analysts.....	v
About the author.....	vi
Introduction.....	1
Background.....	1
7 th Edition Yearbook changes.....	3
Structure of the Yearbook.....	5
Yearbook benefits.....	6
Queries.....	7
Section 1 – Identifying the value of the Yearbook.....	8
Contextualising the importance of benchmarking to the global automotive components industry.....	9
The market driver methodology and measurement formulae.....	11
Profile of firms in the database.....	21
Calculating the cost of WCM non-adherence.....	26
Reading the statistics presented in Sections 2 through 7...	30
Section 2 – Aggregate industry performance findings... ..	32
Average findings for 2008.....	33
Cost benchmark performance analysis for 2008.....	34
Qualitative analysis of performance for 2008.....	35
Market driver #1: Cost control.....	36
Market driver #2: Internal & external quality performance	41
Market driver #3: Value chain flexibility.....	47
Market driver #4: Value chain reliability.....	56
Market driver #5: Human resource development.....	63
Market driver #6: Product development.....	74
Financial performance.....	78
Section 3 – Sub-sector performance findings.....	83
Trim sub-sector summary findings for 2008	
- Average findings.....	84
- Cost benchmark performance analysis	85
- Qualitative analysis of performance	86
Harnesses sub-sector summary findings for 2008	
- Average findings.....	87
- Cost benchmark performance analysis	88
- Qualitative analysis of performance	89

Electronics sub-sector summary findings for 2008	
- Average findings.....	90
- Cost benchmark performance analysis	91
- Qualitative analysis of performance	92
Foundries/forges sub-sector summary findings for 2008	
- Average findings.....	93
- Cost benchmark performance analysis	94
- Qualitative analysis of performance	95
JIT assembly sub-sector summary findings for 2008	
- Average findings.....	96
- Cost benchmark performance analysis	97
- Qualitative analysis of performance	98
Metal forming/pressing sub-sector summary findings for 2008	
- Average findings.....	99
- Cost benchmark performance analysis	100
- Qualitative analysis of performance	101
Metal fabrication sub-sector summary findings for 2008	
- Average findings.....	102
- Cost benchmark performance analysis	103
- Qualitative analysis of performance	104
Components sub-sector summary findings for 2008	
- Average findings.....	105
- Cost benchmark performance analysis	106
- Qualitative analysis of performance	107
Glass sub-sector summary findings for 2008	
- Average findings.....	108
- Cost benchmark performance analysis	109
- Qualitative analysis of performance	110
Heat transfer sub-sector summary findings for 2008	
- Average findings.....	111
- Cost benchmark performance analysis	112
- Qualitative analysis of performance	113
Precision machining sub-sector summary findings for 2008	
- Average findings.....	114
- Cost benchmark performance analysis	115
- Qualitative analysis of performance	116
Plastic moulding sub-sector summary findings for 2008	
- Average findings.....	117
- Cost benchmark performance analysis	118
- Qualitative analysis of performance	119
Other sub-sector summary findings for 2008	
- Average findings.....	120
- Cost benchmark performance analysis	121
- Qualitative analysis of performance	122
Market driver #1: Cost control.....	123
Market driver #2: Internal & external quality performance	144
Market driver #3: Value chain flexibility.....	170
Market driver #4: Value chain reliability.....	211
Market driver #5: Human resource development.....	242
Market driver #6: Product development.....	293
Financial performance.....	309

Section 4 – Multinational versus independent/national owned firm performance findings.....	330
Multinational firm summary findings for 2008	
- Average findings.....	331
- Cost benchmark performance analysis	332
- Qualitative analysis of performance	333
Independent/national firm summary findings for 2008	
- Average findings.....	334
- Cost benchmark performance analysis	335
- Qualitative analysis of performance	336
Market driver #1: Cost control.....	337
Market driver #2: Internal & external quality performance	342
Market driver #3: Value chain flexibility.....	348
Market driver #4: Value chain reliability.....	357
Market driver #5: Human resource development.....	364
Market driver #6: Product development.....	375
Financial performance.....	379
Section 5 – Developed economy versus developing economy firm performance.....	384
Developed economy summary findings for 2008	
- Average findings.....	385
- Cost benchmark performance analysis	386
- Qualitative analysis of performance	387
Developing economy summary findings for 2008	
- Average findings.....	388
- Cost benchmark performance analysis	389
- Qualitative analysis of performance	390
Market driver #1: Cost control.....	391
Market driver #2: Internal & external quality performance	396
Market driver #3: Value chain flexibility.....	402
Market driver #4: Value chain reliability.....	411
Market driver #5: Human resource development.....	418
Market driver #6: Product development.....	429
Financial performance.....	433
Section 6 – Firm performance findings based on market focus	438
OEM market summary findings for 2008	
- Average findings.....	439
- Cost benchmark performance analysis	440
- Qualitative analysis of performance	441
Aftermarket market summary findings for 2008	
- Average findings.....	442
- Cost benchmark performance analysis	443
- Qualitative analysis of performance	444
‘Other component firm’ summary findings for 2008	
- Average findings.....	445
- Cost benchmark performance analysis	446
- Qualitative analysis of performance	447

Market driver #1: Cost control.....	448
Market driver #2: Internal & external quality performance	453
Market driver #3: Value chain flexibility.....	459
Market driver #4: Value chain reliability.....	468
Market driver #5: Human resource development.....	475
Market driver #6: Product development.....	486
Financial performance.....	490
Section 7 – Performance findings according to employment size of participating firms.....	495
Small firm summary findings for 2008	
- Average findings.....	496
- Cost benchmark performance analysis	497
- Qualitative analysis of performance	498
Medium firm summary findings for 2008	
- Average findings.....	499
- Cost benchmark performance analysis	500
- Qualitative analysis of performance	501
Large firm summary findings for 2008	
- Average findings.....	502
- Cost benchmark performance analysis	503
- Qualitative analysis of performance	504
Market driver #1: Cost control.....	505
Market driver #2: Internal & external quality performance	510
Market driver #3: Value chain flexibility.....	516
Market driver #4: Value chain reliability.....	525
Market driver #5: Human resource development.....	532
Market driver #6: Product development.....	543
Financial performance.....	547
Appendix I – Global automotive industry analysis: The need for improved firm-level competitiveness.....	552
Appendix II – One page competitiveness self-assessment.....	571
Appendix III – Detailed industry benchmark data.....	573
Appendix IV – Yearbook Navigational Guide.....	575
